NEWSPAPER ARCHIVE®

DARGOT WHIG

TUESDAY, SEPTEMBER 18, 1838.

VERMONT ELECTION. The Whigs of the Green Mountain State have triumphed gloriously. Gov. Jennison's majority will be about SIX THOUSAND. A Whig gain of 1500 votes from last year. In some of the counties the Whig gain has been very great. Orange county is carried by from 100 to 150 majority last year V. B. by a majority of 220. Here is a gain of three Senators and to offset it, the Vanites have gained one in Franklin, which are the only changes in the Senate so far as heard from. We may possibly lose one in Crittendem. The Senate will probably stand 22 whigs to 8 opposition. In the election of members of the Legislature the whig gain is very great. Last year our majority was about 25, and this year, from present appearances, it will be 50 or more. Of 50 Representatives heard from in Windsor, Rutland and Windham Counties, there stands 3 Van Buren.

The Whigs have elected three members to Congress, the Van Buren man [illegible], and in the fourth (Allen's district) there is no choice. Mr. Allen's opponent, Mr. Smith is a very popular man, and for his zeal in the cause of the Canadian Patriots gets a much larger vote than his own party can give him. He is opposed to the Sub Treasury bill and in favor of a well regulated Banking system. St. Albans, which is a Whig town, gave him three to one; and Franklin, which is essentially Whig, gave him 400 majority. It is thought Mr. Allen will decline a further canvass, and a candidate calculated to unite all Whigs be presented.

THE AROOSTOOK. The Fredericktown Sentinel copies the account we gave a weeks since of the driving from the Aroostook of a party of British trespassers, who were there with their teams, committing depredations upon our territory, and makes the following comments.

On our first page will be found an account of an interference with some lumberers on the Aroostook, by the Americans in that quarter, who have associated themselves together for that purpose. We observed the notification of certain individuals to that effect in the Woodstock Times, a short time since, and intended to have noticed the subject. The object of the parties, to cut timber on lands for which they had no license, is clearly illegal; but it is equally so for individuals to interfere with them in the manner described, and they may be indicted for the assault. The combination alluded to will probably attract the attention of the authorities. The settlers on the Aroostook require a vigilant and watchful eye; they are Americans, who have settled with a conviction that the territory will ultimately be ceded to the United States Government most of whom, we understand, do not profess to owe allegiance to the Government of the country in which they reside; and who probably are as guilty of trespassing on the crown lands, as those against whom they have struck themselves.

A Destructive Fire has been raging in the woods in New Jersey for several days by which a vast amount of property has been destroyed. The destruction in Burlington and Atlantic counties has been immense. A great quantity of wood prepared for market and coaling, with the standing timber, has been consumed, and such is the condition of the cedar swamps by reason of the severe drought, that they are for the most part as dry and inflammable as turf.

On Saturday the fire broke out in the woods near Glassboro,' and so rapid was its progress, in the direction of the Union, that a person hauling coal on the road through the wood, was forced to abandon his wagon and load to the fire in order to make his escape.

A Philadelphia paper gives the following dreadful incident in this connection: "We learn that on Friday last a young man who was coming to market with a load of hay through the district of New Jersey, was arrested on the way by the flames communicating with the hay, which resulted in the destruction of the young man, horses, hay, and wagon. It is supposed that the young man was on the top of the loaded wagon and became entangled so that he could not extricate himself, or that in his attempt to extinguish the flames, he fell a victim to their rapid strides. He was found a distance of ten or fifteen feet from the remains of the wagon."

THE FUTURE. This is the day, as astronomers tell us, on which the eclipse of the sun is to take place. According to the American Almanac, the beginning of the eclipse will be at 3h 21m 20s the greatest obscuration at 4h 45m 50s the end at 5h 56m 15s It will be annular in various parts of America including that tract of country between Fairfield, Conn. and Pittsburgh, N. C. but it will not be annular in Massachusetts or any part of New England, excepting Fairfield county, Conn.

MAINE ELECTION. The Boston Mercantile Journal, thus speaks of the result of the election, viz:

"The Whigs of Maine have nothing with which to reproach themselves. They have disputed every inch of ground, and now have the satisfaction of feeling that they have nobly exerted themselves to retain the honor and prosperity the best interests of their state and their country. The success of the Van Buren party is a triumph of corruption and intrigue over honesty and virtue, and many a heart will rejoice at the victory which they have achieved, will yet date disaster if they have been the victims of fraud. Those who have acted a degrading part in helping them, and will have cause to mourn, instead of triumphing."

[illegible], &c. The Advertiser says the [illegible] gave respecting the money sent by Mr. Williams into Oxford county, [illegible] partly correct and partly incorrect. $50 was sent into Oxford County by Mr. W. for election purposes, but it was returned [illegible] and was therefore, not used for that purpose.

[illegible] population of 18,139.

MICHIGAN. The Whigs of Michigan have nominated Hezekiah G. Wells as their candidate for Congress from that state. The election is held in November. At the election in August last year, Wells received 8115, Cary locofoco, 9005 a reduction from the locofoco majority of 615 votes, as compared with the vote at the State election in November.

NEW YORK. The Whigs of New York have nominated WM. H. SEWARD as their candidate for Governor, and LUTHER BRADISH, for Lieutenant Governor.

The loco focos have nominated Wm. L. Marcy for Governor, and John Tracy for Lieut. Governor.

☞ The last account from Illinois states that Stewart is elected by a handsome majority. We shall not believe it, however, till we see the official returns.

It is reported in Upper Canada among the best informed circles, that Sir George Arthur has already resigned the Lieutenant Governorship of the Province.

The Ohio Penitentiary has 400 convicts, of whom only one is a female, and she a woman of colour.

Four hundred houses have been built at St Louis, Missouri, during the past year.

☞ Wm. Bostic, Esq. of the firm of Hart & Co. of New York was found drowned in the Thames, London, about the 1st of August. Strong suspicion is entertained that he came to his death by unfair means, as severe marks of violence were found upon his body.

A drunken rascal in New York murdered a boy in the streets, by taking him up by the heels and knocking his head against the pavement.

Col. Wm. Key Bond of Ohio is unanimously renominated to Congress by his constituents of Ross, Pike and Jackson counties in convention at Chillicothe, Sept. 1.

Penobscot Agricultural Society. The Annual Exhibition of this Society takes place at Exeter on the 28th inst. This is a Society in which all our citizens should take a deep interest. They should lend their aid and influence in promoting its prosperity and extending its benefits. The Mechanic and Farmer has a good article, which we give place to with pleasure, as it is much better than any thing we can offer on the subject.

PENOBSCOT AGRICULTURAL SOCIETY.

We have placed conspicuously upon our fourth page a notice of the Fair and Cattle Show of this Society to which we would direct attention. This Society has struggled for several years against many discouragements, but not without much benefit to the agricultural community. Through its energetic administration and its offers of premiums to successful cultivators, it has awakened a commendable zeal throughout every department of farming operations in the field, the pasture, the barn, the shed and the house. The farmer and his wife, the boys and the girls, have all been stimulated with a noble emulation to do better than ever before. Let any one go through our country and witness the improvements that have been made, and then say if he is willing this society, that has so nobly, considering its means, stood out in the front rank, bearing the banner of hope to the husbandman, and pointing him to the path of progress, prosperity and honor, making him in love with his profession, and nerving him to the high purpose of elevating it to the quality of a practical science, then we repeat, let him say if he can, if he dare, that the society ought not to be encouraged, sustained and cheered in its onward march.

Every farmer, who will give himself time to think on the subject, will surely become a member of such a society, and give his constant attention to its interests, because he thereby aids and benefits himself and all his fellowmen. The mechanic and the lawyer, the merchant, the minister, and the doctor, and indeed all classes and conditions of men amoung us, are immediately or remotely interested in the success of this same Penobscot Agricultural Society, and should be willing, nay, desirous to aid by their name and purse its praiseworthy object.

The cost of membership is only one dollar a year; and for each dollar so received, the State furnishes an equal amount to be distributed in premiums for the best Stock, productions, or workmanship. We hope that a general interest will be felt in the approaching Fair, and that a large number will visit it, and at the same time give in their names for membership. No matter to what political or religious party individuals belong, all will be admitted, for there is room and to spare. Up, then, fellow citizens, and aid the country and yourselves by sustaining a society, than which there is no better or more useful and truly patriotic, in the world.

DON'T GIVE YOUR GROG AT ROBEY'S!

Sung with great applause at a Locofoco Caucus in Bangor.

Come brother locos, old and young!
Come loafers, sober, drunk and ragged!
You ask a toast, I'll give you one wag,
"May I on a gallows tall be hung
If I ever give my grog at Robey's."

Then the locos all, both high and low,
With hearts well moved for joy or sorrow
Cried, "down with this our mortal foe
May we be cursed from top to toe
If we get our grog at Robey's!"

Stop! stop! cries Ex-Attorney E.
We've double-voted, lied and cheated
We're already curs'd if men can be,
Some other oath must serve for me,
To drink no grog at Robey's!"

Then this godlike stretched out his right hand
In which was a noggin filled with liquor
"As sure as I'm to be righteously hang'd!
I'll pour my heart's blood on the sand
If I get my grog at Robey's!"

Chock full of fire I'll bear the brunt
My dearest friends and brother sinners!
If Robey trusts and Vinton won,
Keep well your word, and don't! O don't
Drink any grog at Robey's!"

But ah! how frail is feeble man!
How weak! how little to be trusted!
Time flies, but scarce one little span
Had passed, ere all again began
To get their grog at Robey's!"

LATE FROM MEXICO. FRENCH BLOCKADE. An arrival at Pensacola confirms what had been intimated in our French news, that a brig of War had reached Vera Cruz in 42 days, direct from France, stating that an army of 10,000 men and 15 vessels of War were to be dispatched immediately for the bombardment of Vera Cruz.

The brig of War La Perouse still blockaded the port of Tampico.

The sloop of War Nimrod had sailed from Tampico, for Havana and Jamaica, with about $1,000,000 in specie, and a large quantity of cochineal and vanilla for the former port. The packet brig Linnet had also left Tampico with about $1,000,000 destined for England.

An old kind of death. When Mr Kennedy, the author of "Horse Shoe Robinson," was making his eloquent speech in Congress against the sub-treasury bill, he spoke of eccentric scruples of certain Virginia politicians in regard to a national bank. "Let Virginia," said he, "give up dialectics, renounce her spirit of dissertation and debate, and betake herself to commerce and manufactures: let her do this, and thrive: let her neglect it, and it may be her fate" (while the orator paused, Mr Wise finished the sentence for him by saying) "to die of an abstraction." "I adopt," said Mr Kennedy, "the gentleman's expression, though I hope a better fate awaits her" "to die of an abstraction."

KISSING A LADY. At the time of the marriage of Jerome with a princess of Wurtenburg, among the princes at Napoleon's court was one who used daily to visit Fanny de Beauharnais, god mother to Queen Hortense. He never took leave of her without pressing one, and sometimes both cheeks to hers, and on one visit, after having been more than usually affectionate, he left her to go to the Tuilleries where he had been invited to dine with the Emperor. He had scarcely entered—has one of the footmen, approaching him respectfully, told him that his cheeks were quite red, and turning to a mirror, his Highness discovered that the rouge from the cheeks of his old friend Fanny Beauharnais, had been transferred on his own. Removing this unnecessary coloring, he was announced to the Emperor; and in gratitude to the valet, procured him a pension of 1200 francs.—*Memoirs of Queen Hortense.*

ROBBERY. A gentleman who was passenger in the steamboat Portland yesterday morning from Portland, had his pocket cut open, whilst asleep in his berth, and four letters were taken. One of the letters contained one hundred and fifty dollars. He did not miss the letters until he reached his boarding house, when, on examining his coat, the pocket and facing were found to be cut. Returning immediately to the steamboat, he made inquiries, but as the passengers had all gone on shore, no trace could be found of the letters or money. [Bos. Atlas.

Influence of the Moon on timber. If a tree be cut down at full moon, it will immediately split as if torn asunder, by the influence of external force the timber is likewise attacked much earlier by the rot, than if felled at any other season. Trees that are intended to be applied to dry uses should be cut only during the first and last quarters of the moon, [illegible] the top of the tree at full moon, and [illegible] its decrease.

BANGOR, [illegible] writes us that "the wife of Nicholas Lanfus, of Washington, while in a state of insanity, lately murdered her own child, about nine months old, by cutting its head with an axe. She endeavored to cut off a hand, but it [illegible] her blow. Being shown the bloody axe, said it looked pleasant. What must be her sensations, when she regains her senses, if she [illegible] does!" It is said she [illegible] under a religious [illegible] "[illegible]" [illegible] Banner.

THE SET OF DIAMONDS.

M. E[illegible], a jeweller, well known for his skillful mental [illegible], saw arrive at his [illegible] one morning a lady who seemed forty [illegible] although still young and fresh. Madame L. Comtesse de [illegible], was admitted within the gate of the celebrated physician. The Countess introduced herself on the spot, and spoke as a mother in desolation and despair in the following terms:

"Sir, you are a woman a prey to the most violent chagrin. I have a son; he is only dear to me as well as to my husband; he is our only [illegible]

"Tears like rain fell, such as Achelis's shed over the tomb of Mr. Rens.

"Ah, yes! Yes, sir! and for some time we have suffered the most horrible fears. He is now at the age when the passions develope. Although we gratify all his wishes, money, liberty, &c. he evinces many signs of dementation.

"The most remarkable is, that he is always talking about jewelry or of diamonds, which he has sold or given to some woman, all unintelligible. We suppose he has become amorous of a woman, no better, perhaps, than she should be, and that he has involved himself in burthensome engagements to satisfy his desires. This, sir, is but a conjecture. The [illegible] lost in sounding the cause of this folly.

"Well, madam, bring your son here."

"Ah, to-morrow, sir, by all means at noon."

"That will do."

The doctor respectfully conducted the lady to her carriage, not forgetting to scatter the coat of arms and the lackays.

The next morning the Countess drove to a famous Jeweller, and after having a long time chaffered a set of diamonds worth about 30,000 crowns, she finally purchased it. She negligently drew a purse from her reticule, found there ten thousand francs in bank notes, and spread them out; but immediately gathering them up, she said to the Jeweller, "you had better send a person with me. My husband will pay him. I find I have not the entire sum."

The jeweller made a sign to a young man, who proudly delighted to go in such an equipage, started off with the Countess M. She drove to the Doctor's door, and whispered to him: "This is my son, I have him with you." To the young man she said, "My husband will his study; walk in; he will pay you."

The young man went in. The Countess and the carriage went off, first slow and noiseless; soon after the horses galloped.

"Ah, well, young man," said the physician, "you understand the business, I suppose. Let us see; how do ye feel? what is going on in this young head?"

"What passes in my head, sir? Nothing except settling for the set of diamonds."

"We understand all that," said the doctor, gently pushing aside the bill. "I know, I know."

"If the gentleman knows the amount, no more remains but to pay the cash."

"Indeed! indeed! Be calm where did you get your diamonds? what has become of them? Say as much as you will; I will listen patiently."

"The business is to pay me, sir, forty thousand crowns."

"Wherefore?"

"How, wherefore?" said the young man, whose eyes began to glisten.

"Yes, why should I pay you?"

"Because, Madame, the Countess, has just purchased the diamonds at our house."

"Good! here we have you. Who is the Countess?"

"Your wife;" and he presented a bill.

"But do you know, that I have the honor to be a physician, and a widower!"

Here the young man became transported, and the doctor called his domestics, and bade them seize him by the hands and feet, which raised his transport to fury. He cried 'thief! murderer!' but at the end of a quarter of an hour he calmed down, explained every thing soberly, and the terrible light began to dawn upon the doctor.

Notwithstanding all the search that could be made, this singular theft, so witty, so original from the scene of the physician and the young man, was never discovered. The ingrate had taken care to conceal every trace of herself. The drivers and lackeys were all accomplices. The carriage was hired, and this history remains a monument in the memoir of jewellers.

REC'D and for sale cheap at 54 Main street by

july21 2m GEO. M. HAYDEN.

DR. L. FRANCIS' OCULUS-AQUA,

OR Specific for Diseases of the Human Eyes.—In presenting to the afflicted Dr. Francis' celebrated "Oculus-Aqua," the Proprietor is conscientiously actuated by a sense of duty, and a feeling which tells him he will be the means of alleviating the sufferings of his fellow creatures.

This remedy is known to have tried and has succeeded, in cases where hope had fled, and where perpetual loss of vision was rapidly setting in. It has succeeded in cases where the Faculty of Medicine had declared the sufferer to be incurable. See Certificates.

The object of the Proprietor in thus openly and candidly placing his remedy before the community, is that it may be known to all, and that it may prove a balm of healing to the desponding and afflicted.

Francis' Oculus-Aqua is adapted to all inflammatory diseases of the Eyes, even when in their most tedious and chronic stages—it is adapted to all kinds of nervous affections, inability to use the eyelids, weaknesses of sight, opthalmias, &c. It will also remove, by a gentle course, those nebulous scaly dead, cloudy appearances, frequently known by the name of "Cataracts"—Finally, all those inflammatory and nervous diseases with which the organs of vision are attacked, should invariably be treated by this inestimable remedy.

The Specific is put up in bottles, with complete directions for use. Advice is cheerfully given, free of charge, at the Proprietor's house, where alone the Specific can be procured, in the city of N. York.

Professional hours from 7 to 12 A. M. and from 2 to 5 P. M. 70 Barkley-street, June 12, 1838.

P. S. It has been thought advisable to annex a few certificates from Gentlemen, whose station in life, respectability, piety, and acknowledged worth are sufficient vouchers for the accuracy of their statements. To make any comments on them would be alike insulting to the judgement of the reader, and the unblemished honor of the authors.

From the Rev. Mr. Davies, Pastor of the church at Bridgeville, N. Y. This is to certify that a gentleman with whom I am acquainted, who had been nearly blind for eight years, after expending several hundreds of dollars on various remedies, with a view to relieve himself, was at length prevailed on to try one bottle of Dr. Francis' remedy. To the astonishment and gratification of his friends, after using it, though a martyr for many years to this distressing malady, he recovered his eye sight and speedily did he improve in health till he recovered his perfect vision.

Another case was that of a poor man, who spending nine months in the Eye Infirmary, was discharged by the physicians of the Institution, with what they termed an incurable cataract on one eye, so that he was nearly blind. A trial of Dr. Francis' remedy, however, (three bottles only being used by him) removed it, to the surprise of all who knew it, and now he can see with that eye as well as he ever did! I feel it my duty to give this information for the benefit of the public.

The Rev. J. Harrison, 41 Thomas street, having procured a bottle of the above for Mrs. Harrison's eyes, says, "to his astonishment it has removed the dimness and pain which had been excessive for years; she had used many different eye waters, but they all failed. Therefore I hope the public will appreciate its value.

JOSEPH HARRISON.

Mrs. M'Caffrey, No 2 James street, widow of the late Dr. M'Caffrey, having used Dr. Francis' eye water, says, "I am happy to state it had the desired effect, and I can truly say saved me from the late blindness, and I hope the public will [illegible] its value."

The Rev. Mr. Dunbar says "From the testimony of those who have used the Oculus Aqua prepared by Dr. J. Francis, I have [illegible] it to the special notice of the public."

DUNCAN DUNBAR,
Pastor of the Methodist church.

The Improved Enamelled EYES, invented by Dr Isaac Francis, cannot be distinguished from the natural, and will perform every motion of that organ without giving the slightest pain.

DR. BRANDRETH'S GENUINE PILLS

Doctor Sangrado's system still
Lives in the world, to kill, to kill!

THIS system does indeed live still, and is practised by the very men who laugh at Doctor Sangrado as a visionary fool. The immaculate Faculty!! But this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid, stagnant and corrupt humors IN THE BODY by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take

Brandreth's Pills spurned forth
From the pure products of the earth!
They own no alien and alloy,
They cleanse, heal, but never destroy!

BLEEDING ALWAYS IMPROPER,

"For the life of the flesh is in the blood," Leviticus, chapter xvii. v. 11. When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer be thought of as a remedy for diseases, for in a bad inflammation, eight or ten of them will take in the course of two or three hours, more of the impure humors from the body, by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done, and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of inflammation; whereas bleeding removes the essential parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a dose of this medicine; the body is indeed lightened of a load. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which 84 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is it tremulous, showing nervous excitement? the Pills, by soothing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times in a year; and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and having a vein opened, they have swallowed six or eight Pills, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible people, simply by the use of these inestimable Pills, are increasing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure, by the use of Brandreth's Pills, alone, are submitted with respect, to the unprejudiced portion of the Boston public:

ASTHMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct., deserves, by all persons, a careful perusal. The most prejudiced must own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no necessity for any other medicine.

This is to certify that Thomas S. Brown of Greenwich, Ct., was taken with a cold, numb feeling, on the 13th of June last. He began to cough and raise phlegm and in the course of twenty-four hours about two quarts of thick white jelly was expectorated. Three physicians in Stamford, Greenwich, and Sawpits, pronounced it a nervous humid spasmodic Asthma, and after prescribing for some time to no effect, the three consulted together, and finally declared that they could do him no good; it would and must result in consumption, and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Brandreth's Vegetable Universal Pills, and immediately sent by Capt. J. Waring of Greenwich, for a box, and found relief in the course of a few days, which encouraged him to persevere; and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in consequence of taking the above Pills, which we have also used in our families, and have found them invaluable.

Signed [illegible] Feb. 1836,
James R. Keas, Daniel S. Betts, John H. Reynold, A. Palmer, Rev. R. Palmer, J. R. Palmer, H. Brewsley, S. Jessup, James Moore, Hannah Hitchcock, J. Mean, Thos. Bertram, Isaac Olmstead, P. V. T. Jessup, Stephen Waring, John Lumbry.

Certificate of John Goulden, who has known the above pills forty years:

I hereby certify, that I have known Brandreth's Vegetable Universal Pills for upwards of forty years they were used by my family connections, in the county of Dorset, England, since the year 1796, many of whom they cured of old standing complaints. JOSEPH GOULDEN.

Bridgeport, Feb. 18, 1836.

Certificate of cure of CHOLICS, FITS, &c. From a BOSTONIAN, whose address is at the foot [TRUE COPY.]

To Dr. Benj. Brandreth:

Mr dear Sir. I write a few lines to inform you that I have been making use of your Vegetable Universal Pills. I have been afflicted with a complaint supposed to be caused by PAINT. I was subject to a great coldness through my whole system, attend [illegible] severe cholics for the year. I have also been subject to fits which would seize me in the night, and when I came to myself I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence, No. 17 Sudbury street. Any one who wishes to inquire.

Feel the medicine has been of very great benefit, and that the diseases under which I labored have [illegible] by a THOROUGH REMOVAL, [illegible] I shall ever feel grateful to Providence and to you.

Believe me to remain,
Very respectfully,

A VALUABLE REAL ESTATE FOR SALE.

The whole of the PHIPSBURGH ESTATE, situated in Centre, Clearfield, and Cambria Counties, in the State of Pennsylvania, with all the improvements thereon, is now offered for sale.

THIS Estate comprises about SEVENTY THOUSAND ACRES of Land VERY HEAVILY TIMBERED, and in the HEART of the BITUMINOUS COAL FIELD, upon which are already established a FORGE for the manufacture of bar iron, with all the [illegible] well constructed SAW MILL, a SCREW FACTORY, with improved machinery, at which wood screws of all sizes are manufactured. A ROLLING MILL, for the rolling of blooms into round rods for wire drawing, with AIR FURNACE for heating the blooms. An ANNEALING HOUSE, a BUILDING with a FURNACE and MACHINE for heading rail road screws. A PATTERN HOUSE, containing numerous patterns for casting machinery. A CUPOLA FURNACE, where the machinery of the [illegible] factory is cast, and an extensive country business carried on. A BUILDING containing a TILT HAMMER and SHEARS for cutting iron. A MANAGER'S HOUSE & OFFICE, and BOARDING HOUSE for workmen. A valuable GRIST MILL, worked by steam power.

Also, the PROPRIETOR'S HOUSE, beautifully situated, seventy-six feet in front, with spacious piazzas front and rear, and possessing every convenience calculated for a gentleman's residence. A LARGE AND SUBSTANTIALLY BUILT BRICK HOTEL, in the town, with all the requisite out-buildings. A WELL BUILT STONE HOUSE, forty-two by twenty four feet, with the land adjoining. A LARGE STORE HOUSE calculated for an extensive country business. FIVE COTTAGES in the village with gardens attached. A FARM HOUSE with a spacious and well constructed Barn, Granary and out-buildings, and one hundred and fifty acres of highly cultivated meadow land adjoining. The whole estate is abundantly supplied with springs of excellent water, and streams, with water power sufficient for saw mills, grist mills, forges, furnaces, &c. It is situated on the Moshannon and Clearfield Creeks, about ten miles from the river Susquehanna on the north, to which the Moshannon and Clearfield Creeks afford navigable outlets in time of freshets, and about twenty five miles from the PENNSYLVANIA CANAL on the southeast, to which a highly favorable route is presented for the construction of a Rail Road to the JUNIATA DIVISION of the Pennsylvania Canal, through a portion of Huntington County, abounding in IRON ORE, of the finest quality, where a number of forges and furnaces have been long established, but which are laboring under difficulties from the SCARCITY OF THIS COAL. A charter has been obtained for the construction of the rail road, THE LOCATION OF WHICH IS COMPLETED, and the estimates furnished, preparatory to a commencement of the work. The distance from the COAL MINES to the CANAL is only twenty-eight miles.

The MAGNIFICENT TIMBER upon this estate, consists of all the varieties usually found in Pennsylvania, but the WHITE PINE, which is MORE PARTICULARLY ABUNDANT, is of the largest description, fit for MASTS, SPARS, PANNEL BOARDS, &c. and of an EXCELLENT QUALITY. The BITUMINOUS COAL is found in every hill, in veins of various thickness, viz: four feet two inches, six feet and nine feet, and there are two, three or four veins in a hill according to its elevation. The quality varies, in different situations FROM THE HIGHLY BITUMINOUS SOFT COAL, CHIEFLY RESEMBLING the NEWCASTLE COAL OF ENGLAND, to a much harder and heavier Coal containing less bitumen. LIME STONE, FIRE CLAY and IRON STONE have been discovered accompanying some of the measures, and will doubtless be found to be general, upon a proper examination. A HIGHLY FAVORABLE CHARTER has been granted by the Legislature of Pennsylvania, containing MINING, MANUFACTURING and TRANSPORTING PRIVILEGES for a period of SIXTY YEARS, authorizing a company to hold this estate in a corporate capacity, and to convey to market its vast resources.

Family circumstances however, having occurred to prevent the proprietor from individually accomplishing this important enterprise, he would be willing to sell, on LIBERAL TERMS, the whole property to a respectable company who would carry out the provisions of the charter, to whom, of course, he would transfer all his privileges, or he would sell the estate in tracts, to suit the convenience of purchasers.

The title to this Estate is INDISPUTABLE, and the SALUBRITY of the CLIMATE is proverbial. Taking into consideration, therefore, the immense quantity of the HEAVY and VALUABLE TIMBER upon this estate, the presence of IRON ORE, the INEXHAUSTIBLE supplies of BITUMINOUS COAL, so essential in the GENERATION OF STEAM, the PROSECUTION of GAS, and for domestic purposes and the arts in general, its ADVANTAGEOUS POSITION, with regard to its communication with the SEA BOARD, the IMMEDIATE PROXIMITY to a CANAL ABOUNDING in the HIGHEST IRON ORE, in which the WANT of forges already productive of millions, however, considering also, the highly favorable location of the rail road, intersecting the Pennsylvania Canal and thus affording the trade of both the Eastern and Western markets, and taking into view the many HOUSES, BUILDINGS, MANUFACTORIES, ESTABLISHMENTS, CLEARED and CULTIVATED LAND, thus enabling the enterprising company to commence their operations WITHOUT INCURRING the HEAVY EXPENDITURE of money, and the many incidents to new [illegible] it is sincerely believed that a rare opportunity is now presented for the SAFE and PROFITABLE investment of capital.

For further particulars application may be made either personally or by letter, POST PAID, to Richard Ford, Esq. New York; [illegible] Philadelphia; John Burke, Esq. Brooklyn, Milton county, Penn. [illegible]
